

# LEAP MANAGED AI SERVICES

***Transform Your Organization with Ridiculously Helpful AI Services from LEAP Managed IT***

Building an internal AI department is costly, time-consuming, and complex. LEAP Managed AI Services provides your organization with an immediate, elite team of AI and automation professionals. We lead your AI journey from day one, so your team can stay focused on what they do best.

**Stop Searching for AI Experts. Start Leading with Ours.**

**Your AI Strategy Team** - LEAP Managed AI bridges the gap between AI potential and operational reality. Our experts don't just give you a login; we become your outsourced AI department, providing the strategy, training, and custom development needed to drive real results for businesses, government agencies, and non-profits.

**Expert-Led Journey. Enterprise-Ready Tools** - When you partner with LEAP, your organization gains a strategic roadmap led by specialists, backed by the power of LEAP AI Studio—the leading secure platform for intelligent automation.

- **The Power of Choice:** Through LEAP AI Studio, our experts give you access to 15+ leading models—including OpenAI, Google, Anthropic, Meta, and Mistral—all in one secure environment.
- **Enterprise-Grade Security:** We ensure your data stays yours. Our managed approach includes isolated processing and a strict Zero Third-Party Data Sharing policy.
- **Centralized Governance:** Maintain total organization-wide visibility and control over how AI is used, managed by our governance specialists.

## INDUSTRIES WE SERVE

**LEAP's AI services are trusted by organizations across multiple sectors:**

- ✓ **Business & Enterprise:** Scale operations, enhance customer experience, drive innovation
- ✓ **Government Agencies:** Improve citizen services, streamline processes, ensure compliance
- ✓ **Non-Profit Organizations:** Maximize impact, optimize resources, expand reach
- ✓ **Healthcare:** Improve patient outcomes, automate administration, enhance data security
- ✓ **Financial Services:** Enhance risk management, improve fraud detection, automate compliance

# OUR AI SERVICES ECOSYSTEM

LEAP Managed IT offers a complete suite of AI services designed to meet your organization exactly where you are—whether you're taking your first steps into AI or scaling enterprise-wide deployments. Our ridiculously helpful approach means you get expert guidance, proven technology, and ongoing support at every stage.

## Three Pillars of LEAP AI Services

1

### AI as a Service (AlaaS)

Access powerful AI capabilities on-demand, without the complexity of building infrastructure from scratch. Get immediate access to cutting-edge AI tools that integrate seamlessly with your existing systems.

- ✓ Rapid deployment with minimal disruption
- ✓ Enterprise-grade security and compliance
- ✓ Pay-as-you-grow pricing models
- ✓ No specialized AI team required

2

### AI & Automation Services

Transform repetitive tasks into intelligent, automated workflows that free your team to focus on strategic work. Our AI-powered automation solutions identify opportunities, implement solutions, and deliver measurable ROI.

- ✓ Process optimization and workflow automation
- ✓ Predictive analytics and forecasting
- ✓ Intelligent document processing
- ✓ Custom AI agent development

3

### Managed AI Services

Let LEAP handle the complexity of AI implementation and management. From strategy to deployment to ongoing optimization, we provide end-to-end AI lifecycle management so you can focus on business outcomes, not infrastructure.

- ✓ 24/7 monitoring and support
- ✓ Compliance and governance oversight
- ✓ Continuous model optimization
- ✓ Strategic AI roadmap development
